

10 Gigabit Single-Fiber Bidirectional Network Card

Overview

SFP+ BiDi 10G is a 10-gigabit optical transceiver technology designed to transmit and receive data over a single strand of single-mode fiber, making it an efficient solution for modern fiber-constrained networks. Intel X710 Dual Port 10GbE SFP+ Adapter. This is the Tx1270/Rx1330 (upstream) half of the matched 10GBASE-BX20 pair, deployed against a Tx1330/Rx1270. Our AI beta will help you find out quickly. Did You Find It?

Search Newegg. com for 10gb fiber network card. Get fast shipping and top-rated customer service. Whether you are building a NAS setup, running Proxmox virtualization, or just tired of waiting 45 minutes to transfer a 50GB video file, a 10 Gigabit SFP+ PCIe card can cut that time to under five minutes. But picking the right card is not as simple as grabbing the cheapest option. Chipset quality. The LevelOne GNC-0201 is an industrial-grade 10 Gigabit fiber NIC engineered to solve the bandwidth bottlenecks of modern data centers. This card effectively manages.
