

24-core fiber optic adapter

Overview

The 24 Fibers Fully Loaded MPO/MTP Cassette is an efficient and high-performance solution for managing fiber connections in high-density environments. Designed for seamless transitions between MPO/MTP connectors and LC/SC discrete adapters, this module enhances system flexibility. of backbone fiber cable; it is suitable for fiber splicing, storage and protection. · The slide out style can be with changeable adapter plate, 4ports and 8 ports are available. Molex's experience and resources provide customers a wide range of. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Four sizes of interchangeable Propel fiber. Designed to unleash high-speed data center capabilities, MPO Cable Assemblies and Adapters use high-density MTP and MPO-style connectors to deliver streamlined connectivity, high port density, superior loss performance and simplified maintenance for the high-bandwidth networks of tomorrow. It has four cable entry points on the back fitted with rubber grommets to protect the fiber optic cable from damage.
