

6019 Cable Tray Color

Overview

RAL 6019, also known as 'Pastel green', is a soft, muted shade of green that exudes a sense of calm and freshness. Unlike more intense or vibrant greens, it has a subtle, almost creamy quality, making it appear light and airy while retaining a natural, organic feel. You will notice that all of these grouped colours follow this specific designation, which is based on four-digit number in combination with the letters "RAL". This is why green colours are. Find the tray cable color code to complete your next installation safely. Every foot of wire, every time. By offering you a comprehensive collection of insulation/jacketing materials, shielding options, and conductor counts, you can easily select the cable that meets your most demanding needs. We have. We have developed the Modulor cable trough to also be used for tables on which a normal cable duct can hardly be installed properly due to the many frames (such as the X table frame or Y table frame) to offer a continuous cable collector.
