

Chad pigtail processing manufacturer

AI Overview

Chad Company in Olathe, Kansas, manufactures meat processing equipment, including automated washing and pasteurizing systems suitable for pigtail processing. Company Overview Chad Company, founded in 1971 and headquartered in Olathe, Kansas, specializes in the design and manufacture of USDA-approved meat harvesting and processing equipment. Their product line includes beef equipment, food processing machinery, food safety equipment, and automated washing and pasteurizing systems, which are widely used in small to large volume meat processing operations across the US, Canada, and other countries. The company was acquired by Birko in 2011 and continues to operate as a private firm. Products and Capabilities Chad Company provides equipment that can handle various stages of meat processing, including: Automated washing systems for cleaning carcasses and meat cuts Pasteurizing systems to ensure food safety and compliance with USDA standards Specialized beef and pork processing machinery, which can be adapted for pigtail processing Food safety and sanitation equipment to maintain hygiene and efficiency in processing plants With over 250 satisfied customers, Chad Company is recognized for quality, reliability, and compliance with regulatory standards. Contact and Support Chad Company offers consultation and support for businesses looking to implement or upgrade meat processing lines. They provide guidance on equipment selection, installation, and maintenance to ensure efficient production and compliance with food safety regulations. For more information, you can visit their official website or contact them directly to discuss specific pigtail processing requirements.
