

Construction site electrical distribution box supplier

AI Overview

Reliable suppliers for construction site electrical distribution boxes include DirectIndustry, Modipro, Elektra, Palazzoli, and One-Elec, offering robust, pre-wired, and customizable solutions for temporary power distribution. Key Suppliers and Offerings DirectIndustry lists a variety of construction site electrical enclosures, including thermoplastic and fiberglass boxes, polyester cabinets, and sheet steel internal doors. These enclosures are suitable for three-phase current consumers and comply with standards such as EN IEC 63000:2018 and EN 61439-1:2011, with IP65–IP67 protection ratings for outdoor use. Modipro provides power distribution boxes designed for safe and flexible site power management. Their units handle high current capacities (16 A to 63 A) and feature multiple outlets with individual circuit breakers and RCD protection. Both mobile and fixed installation variants are available, suitable for heavy tools, machinery, and lighting. Elektra offers construction site current distributors with high-quality plastic housings, cross-divided inlet/outlet openings, and foldable strain relief clamps for fast and safe connections. Their designs include accessible connection and main fuses with flip-up covers, enhancing safety and reducing installation time by up to 50%. Palazzoli's ENERGYBOX assemblies are pre-wired boards in technopolymer cabinets with fire-resistant backrests. They can be wall-mounted or installed on supports and are reusable across multiple sites. These boards are ideal for civil building sites, outdoor events, and temporary electrical distribution. One-Elec stocks site boxes from Schneider's Kaedra range, offering waterproof and dustproof enclosures with circuit breakers, differential switches, and emergency stop buttons. These boxes are designed for easy handling and installation, ensuring safe and reliable power supply...
