

Distribution box complete set of intelligent switches

Overview

A Distribution Box/Cabinet Complete Set is a pre-assembled solution integrating circuit protection, switching devices, and busbars within a single enclosure. Smart Distribution Box Solution Powered by KinCony B32M + B16M Controllers The KinCony Smart Distribution Box is a professional intelligent electrical control solution designed for smart homes, villas, apartments, offices. Smart Distribution Box Solution Powered by KinCony B32M Controller + N30. These Distribution Boxes enable decentralized installation of the electronics close to the load. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. It comprehensively utilizes big data, cloud computing, and mobile internet to build an intelligent temporary power box management platform. Intelligent power distribution box is composed of traditional leakage protector, air switch, AC contactor and KC868-H8. Compared with the traditional power distribution box, it is safer to cut off the strong power supply remotely, and it can save energy through the timing mode while controlling the. Choose the most suitable pre-designed switchgear solution to save time and maximize reliability Electrical distribution digitalization is aimed to answer rising demand for energy efficiency and continuity of service for electrical installation.
