

Distribution box xpowr rail

AI Overview

XPower or DIN rail distribution boxes are modular, IP65-rated enclosures designed for safe, compact, and flexible electrical power distribution in industrial, commercial, and outdoor applications.

Key Features

- Modular DIN Rail Design:** These distribution boxes allow mounting of circuit breakers, protectors, and other electrical components on a standard DIN rail, enabling organized and scalable power distribution.
- Waterproof and Durable:** Many models, including plastic or steel enclosures, offer IP65–IP68 protection, shielding internal components from dust, rain, snow, oil, and UV exposure, making them suitable for both indoor and outdoor installations.
- Material and Construction:** Enclosures are typically made from ABS, polycarbonate, or steel, providing lightweight strength, UV resistance, and compliance with flammability standards like UL 94.
- Ease of Installation and Maintenance:** Snap-on lids, transparent covers, and pre-installed DIN rails simplify wiring, inspection, and maintenance without disassembling the box.
- Versatile Applications:** These boxes are used for lighting, pumps, solar systems, industrial control panels, and building automation, supporting both low-voltage and medium-voltage distribution.

Eaton XBoard Series

The Eaton XBoard (XDB) series is a notable example of a DIN rail distribution system designed for compact, energy-efficient, and safe power distribution. Key highlights include:

- Rated current up to 630A with a breaking capacity of 20kA
- Fully shrouded 250A main isolator with safety interlock
- Modular design allowing assembled or unassembled delivery
- Integration of Eaton Echidna and Moeller devices for high performance
- Compliance with international standards and CCC quality certification
- Suitable for commercial buildings, shopping centers, and industrial installations

Selection Considerations

When choosing a distribution box for DIN rail applications:

- IP Rating:** Ensure IP65 or higher for outdoor or harsh environments
- Internal Space:** Select AT series for compact setups or HT series for m...
