

Dutch Cable Tray Standards Company

AI Overview

Stago and Niedax Group are leading Dutch cable tray manufacturers, offering high-quality, standards-compliant systems produced locally in the Netherlands. Key Dutch Cable Tray Companies Stago (Wibe Group) Stago cable trays are manufactured in the Netherlands and are known for their strength, flexibility, and installation efficiency. They offer a wide range of tray types, including perforated, reinforced, and closed designs suitable for commercial buildings, industry, and data centers. Their systems feature double return flanges and reinforced tray constructions for high load capacity and cable safety. Stago trays are certified according to DIN4102-12 fire resistance standards (E30, E60, E90) and are available in multiple finishes and custom RAL colors. The Unilock coupling system ensures quick assembly and electrical continuity for equipotential bonding and grounding. Niedax Group Niedax Group operates globally, including a presence in the Netherlands through Gouda Holland B.V., part of the group since 2013. They provide steel, aluminum, PVC, and GRP cable support systems with a full range of accessories. Niedax emphasizes technical consulting, planning, and installation support, making them a full-service provider for complex industrial and energy projects. CC Nederland B.V. CC Nederland specializes in stainless steel cable trays (AISI 304), offering excellent corrosion resistance and durability. Their trays come in various sizes and can be customized. The rounded design protects cables and hoses, and their patented locking trays allow easy access for cleaning while maintaining secure fastening. Brilltech Engineers Brilltech provides high-quality cable trays in the Netherlands made from galvanized steel, stainless steel, and fiberglass. Their trays are designed for enhanced safety, airflow, and cable protection, adhering to stringent industry standards. They also offer installation support and system design services. Standards and Compliance Dutch cable tray systems generally comply with European and international standards, including fire...
