

EU Fireproof Long-Span Cable Tray Quotation

AI Overview

Fireproof EU long-span cable trays are available from multiple European suppliers with E30 to E90 fire ratings, customizable sizes, and online quotation options. Supplier Options and Features

1. **BAKS Cable Trays** BAKS offers long-span cable trays certified for E30 and E90 fire ratings, ensuring uninterrupted electrical function during fire conditions for 30 to 90 minutes. Their systems are designed for quick installation, with online tools for load simulation, cable filling, and cost estimation. BAKS also provides a Revit model database for design integration and allows users to generate a quotation quickly using their PV Baks design app .
2. **Eurostrut Cable Trays** Eurostrut provides hot-dip galvanized or stainless steel cable trays suitable for indoor and outdoor use. Their trays are durable, flexible, and perforated to reduce overheating risks. Users can request a custom quote directly via their webshop, and the trays are available in various widths, heights, and configurations .
3. **Eurotray EU Series Strengthened Cable Trays** Eurotray's EU Series Heavy Duty Cable Trays are designed for long-span applications and can be customized in size and coating. These trays are suitable for industrial installations requiring robust structural support and can be tailored to project-specific requirements .
4. **Meka Fire-Resistant Cable Support Systems** Meka offers fire-tested cable trays compliant with EN 1363-1 standards, ensuring that electrical circuits remain functional during fire. Their products cover widths up to 600 mm and include all material and surface treatment options. Meka emphasizes safe installation practices and provides detailed brochures and guidance for obtaining quotations .
5. **Trayco Cable Trays** Trayco provides lightweight, high-capacity cable trays with integrated ends for ease of assembly. They offer customized project advice and quotations, making them suitable for appl...
