

External low-voltage distribution box

Overview

They are designed for outdoor usage and verified to withstand external mechanical impacts according to IEC 61439, arctic climate. The cabinets are fully assembled with busbars and busbar supports, complete and delivered from the factory, ready for direct installation. Discover our premium outdoor low voltage stainless steel distribution box, crafted from durable SS316 material. Suitable for both pole and wall mounting, our solutions include ABC distribution boxes, pole-mounted cut outs, outdoor service. Outdoor LV Distribution Boards (ADU) works for Low Voltage distribution networks in public areas. With incoming and outgoing connections from-to grid, as well as outgoings to end customers – depending on model. Our products ensure safe operation, efficient power management, and long-term reliability in diverse low-voltage applications.
