

Fiji Photovoltaic Cable Tray Models and Prices

AI Overview

Fiji offers a range of photovoltaic cable tray systems, including galvanized steel, aluminum, and stainless steel models, suitable for solar panel installations, with prices available upon direct supplier inquiry.

Cable Tray Models for Solar Installations

Material Options

- Galvanized Steel:** Durable, corrosion-resistant, suitable for harsh outdoor environments.
- Aluminum:** Lightweight, corrosion-resistant, ideal for rooftop solar arrays.
- Stainless Steel:** High strength and long-term durability, suitable for coastal or high-humidity areas.

Tray Types

- Ladder Cable Tray:** Open design for easy cable installation and heat dissipation, commonly used in large solar farms.
- Perforated Cable Tray:** Provides ventilation and drainage, suitable for rooftop solar panels.
- Trough or Raceway:** Enclosed design for extra protection against environmental exposure.

Configurations and Sizes

Available in various widths, depths, and lengths to accommodate different cable volumes and solar array layouts.

Customizable fittings and flexible mounting options allow integration with both short-span and long-span solar panel arrangements.

Pricing and Suppliers

Pricing: Exact prices are not publicly listed online and typically depend on material, tray size, quantity, and customization requirements. Suppliers in Fiji provide quotations upon request.

Key Suppliers in Fiji:

- Brilltech Engineers Pvt. Ltd.:** Offers ladder, PVC, mild steel, perforated, and stainless steel cable trays with customized solutions and after-sale support.
- Cable House:** Provides a wide range of cable trays with competitive market prices and durable construction.
- MP Husky:** Specializes in solar cable trays for utility and rooftop solar applications, with corrosion-resistant systems suitable for harsh environments.

Recommendations

Contact suppliers directly to request quotes based on your project specifications, including tray material, length, and load requirements.
