

Finnish high-speed pre-fabricated optical cable manufacturer

AI Overview

Orbis Oy, Nestor Cables, APS Finland, and Bevenic Oy are leading Finnish manufacturers of high-speed pre-fabricated optical cables. Orbis Oy has been a key player in fiber optic technology since 1949, offering custom-made pre-assembled fiber optic cables that can be connected to panels, saving up to 40% of cabling costs. Their production plant in Estonia supports fast delivery of both small and large quantities. Orbis also provides hybrid cables combining fiber and copper, as well as fiber optic tools and equipment for installation. Their products are widely used by major telecommunications operators in Finland, ensuring high reliability and quality for demanding applications. Nestor Cables specializes in the development and production of fiber optic cables and connectivity accessories for modern information and communication networks. They offer a comprehensive range of fiber optic solutions, including pre-fabricated cables and essential accessories designed for high-speed network deployment. Their expertise supports both standard and customized solutions for various industrial and telecommunications applications. APS Finland designs and manufactures standard and custom fiber optic cables, including hybrid solutions for indoor and outdoor use. With over 20 years of experience, APS focuses on high-quality, durable cables suitable for extreme environments, from underground and underwater installations to high-altitude and corrosive conditions. They provide extended warranty options and work closely with customers to deliver tailored solutions for LAN, FTTx, and data center networks. Bevenic Oy is a Nordic contract manufacturer with over 30 years of experience in optical fiber production. They emphasize customized services and certified quality, offering capabilities from design to production. Bevenic supports fa...
