

Free quote for intelligent cold aisle anti-electrostatic tracking

AI Overview

You can request a free quote for intelligent cold aisle containment with anti-static tracking from providers like TRAX, Vertiv, and EAE Electric, which offer customizable solutions for data centers. TRAX Data Center Containment TRAX offers hot and cold aisle containment curtains that are ESD Safe and meet Class 1 flame spread standards. Their materials are compliant with ASTM E-84, UBC Class 1, and NFPA701, ensuring both anti-static protection and fire safety. TRAX provides customizable flexible strip and softwall panels to fit unique facility requirements. You can request a free quote directly on their website or by contacting them via phone, and they provide test data for anti-static properties for all flexible vinyl materials. Vertiv Aisle Containment Vertiv provides freestanding, rack-independent aisle containment systems suitable for both hot and cold aisles. These systems are adaptable to existing racks and allow deployment before or after rack installation. Vertiv solutions are designed to maximize cooling efficiency and can integrate with fire suppression systems using thermal drop-out panels. You can request a quote through Vertiv's website and explore their virtual showroom to see product options and configurations. EAE Electric KabinPLUS EAE Electric's KabinPLUS aisle containment solutions offer cold aisle containment with sliding doors and polycarbonate panels, designed for energy efficiency, airflow management, and physical security. Their systems are modular, adjustable to various cabinet heights, and include seismic stands for stability. EAE Electric emphasizes flexible containment and airflow separation, ensuring anti-static and fire-safe operation. Free quotes can be requested through their website, and solutions are tailored to both standard and non-standard rack configurations. RFID Tracking Integration For intelligent tracking, RFID-based cold ai...

Narrow Aisle Racking with Safety Protector for Warehouse Anti

Narrow Aisle Racking with Safety Protector for Warehouse Anti-Damage Use, Find Details and Price about Safety Protector Rack and Anti-Damage Shelf from Holy Intelligent Logistics Equipment

ColdStore.tech | Intelligent Cold Storage Management

Intelligent Cold Storage Management System Advanced temperature compliance monitoring with energy & inventory-linked intelligence. Real-time oversight for pharmaceutical, food, and logistics industries.

Cold Chain Monitoring IoT Solutions | IntelliStride

Biopharmaceuticals within the cold chain can require different cold chain management capabilities. Innovative asset tracking solutions are vital to cold

RFID Cold Chain Tracking | SEIKO TAGS

RFID Cold Chain Tracking is transforming cold storage. By using temperature-sensing tags for batch reading, it enables dynamic inventory management,

Aisle Containment | Vertiv Hot/Cold Aisle Containment

Find out how to improve your data center infrastructure efficiency, using the cold aisle containment or hot aisle containment solutions from Vertiv.

Aisle Containment | Modular Cleanroom & Data Center

Enhance airflow control and energy efficiency in data centers, laboratories, and cleanroom environments with Armstrong Aisle Containment

Cold Aisle Containment | Legrand

By maintaining consistent, predictable temperatures, cold aisle containment minimizes thermal stress and reduces the risk of overheating, improving reliability and extending equipment lifespans.

Top 7 Cold Chain Logistics Tracking Solutions for 2026

Compare the top 7 cold chain logistics tracking solutions and temperature monitoring platforms for pharma, food, and reefer fleets. Real-time IoT, AI alerts, FSMA 204 and GDP compliance.

Ship a parcel, shipping rates, tracking, courier pickup with DHL ...

Ship and track parcels with DHL Express. Get rate quotes, courier delivery services, create shipping labels, ship packages and track international shipments in MyDHL+.

Containment | Legrand Data Center Solutions

When selecting your aisle containment, you will deploy either a cold or hot corridor. We provide both rack-supported and free-standing solutions for each containment type.

SmartTape: End-to-End Asset Tracking | Trackonomy

Introducing SmartTape, a revolutionary, disposable IoT tracker providing real-time GPS, Bluetooth, & cellular tracking for supply chain visibility.

Anti Static Packaging | Protect Electronics from Static

Anti static packaging is an excellent way to protect products from electrostatic discharge. A buildup of static electricity can cause the failure of electronics or ignition in flammable objects. Using an anti

Cold Containment | Legrand Data Center Solutions

Cold Containment Data centers opting for cold containment deliver cold air through a raised floor into the aisle. This air is contained in front of the cabinets, creating

Data Center Cold Aisle Containment Curtains

Steel Guard cold aisle containment curtains direct cold air to server racks. Handles 10-15kW thermal loads. Custom sized, U.S. manufactured. Free quote.

United States Intelligent Cold-Chain System Market Size ...

Industry leaders in the United States Intelligent Cold-Chain System Market are shaping the competitive landscape through focused strategies and well-defined priorities.

VNA Forklift Truck Anti-collision System | ELOprotect

Prevent forklift truck collisions in very narrow aisles with the ELOprotect ACS system. Real-time detection, automatic speed reduction, and safer VNA

Data Center Containment Curtains

Data center containment curtains by Trax deliver industry-leading hot and cold aisle containment curtain solutions. Request your free quote today.

Hot & Cold Aisle Containment Systems For Data Centers by Cool Shield

Cool Shield™ products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center

Smart Cold Chain Logistics with IoT and AI

Learn how IoT sensors and AI are transforming cold chain logistics with real-time monitoring, predictive maintenance, and automated compliance.

Aisle Containment Systems for Hot & Cold Aisle Solutions

Cool Shield Aisle containment solutions reduces server row temperatures in active data centers. Learn more about the benefits of hot and cold containment.

Cold Aisle Containment System

ASM's cold aisle containment system directs cold air into the server aisles, optimizing data center airflow. It can be tailored in length, height, and width for each project, ensuring a perfect spatial fit

Aisle Containment System | Eaton

Eaton's SmartRack Aisle Containment System is an easy-to-assemble structure designed to keep hot and cool air separated for better temperature control and equipment performance in hot aisle/cold

Hot and Cold Aisle Containment Solution | Legrand

Hot aisle containment is used to capture and direct hot exhaust air back to the cooling units. This popular option is ideal for data centers looking to maximize

SmartAisle

The SmartAisle offering optimizes infrastructure deployment and management with an intelligent row-based system that integrates data center racks, power, row

Schneider Electric Launches EcoAisle Intelligent Containment Cooling ...

Schneider Electric announced the launch of EcoAisle, an intelligent thermal containment system that increases data center cooling efficiency while protecting critical IT equipment and data

Aisle Containment | Modular Cleanroom & Data Center

Our modular systems provide flexible, secure separation between hot and cold aisles or controlled zones to maintain optimal environmental performance.

Cold Chain Tracking & Monitoring Devices - GPS

Select from the largest range of IoT battery-powered asset tracking devices featuring over 10 years of battery life for a wire-free cold chain
