Overview

FRP Armoring between the inner and Outer HDPE Sheath Gives the cable Excellent Tensile Strength, Mechanical, and environmental Protection. The Non-Metallic Structure gives good Electro-Magnetic resistance. This cable is UV-stabilized and is a good choice for external. These cables are constructed with multiple tubes filled with water-blocking Gel giving excellent water and moisture resistance. The range spans steel-armored and all-dielectric ADSS designs in GYTA53, GYTS, GYXTW and figure-8 constructions, from 2 to 288 cores. Every cable is engineered for moisture. 50-meter Active Optical Cable (AOC) HDMI cable, designed to support high-resolution video and audio. The optical fiber communication capacity is large, and the anti-interference performance is good, which can not only meet the needs of communication and automation in the power system.
