

Guinea Stainless Steel Cable Tray Customization Price

AI Overview

Stainless steel cable trays in Guinea typically range from \$10 to \$25 per meter, depending on type, grade, and customization options.

Overview of Stainless Steel Cable Trays

Stainless steel cable trays are widely used in industrial, commercial, and outdoor applications due to their corrosion resistance, durability, and high load-bearing capacity. Common types include:

- Ladder trays:** Open design with side rails and rungs, ideal for heavy cable loads and excellent ventilation.
- Perforated trays:** Solid base with slots for ventilation, suitable for medium loads and heat dissipation.
- Solid bottom trays:** Fully enclosed, protecting cables from dust, moisture, and mechanical damage.

Grades of stainless steel commonly used are 304 and 316, offering superior corrosion resistance and structural integrity.

Price Factors

The cost of stainless steel cable trays depends on several factors:

- Material grade:** 316 stainless steel is more expensive than 304 due to higher corrosion resistance.
- Tray dimensions:** Widths range from 50mm to 900mm, with depth variations affecting material usage.
- Tray type:** Ladder trays are generally more expensive than perforated or solid trays due to higher material and manufacturing complexity.
- Customization:** Special lengths, bends, or modular accessories can increase the price.
- Order quantity:** Bulk orders can reduce per-meter costs by 20–40%.
- Shipping and installation:** Local delivery in Guinea and installation complexity may add to the total cost.

Typical market prices for stainless steel cable trays range from \$10 to \$25 per meter, with bulk or project-based orders potentially lowering costs.
