

How much does it cost to process mesh cable trays in Thailand

AI Overview

Custom-made wire mesh cable trays in Thailand typically range from 1,500 to 5,000 THB per meter, depending on material, size, and specifications. Overview Custom wire mesh cable trays are widely used in industrial, commercial, and infrastructure projects in Thailand, including factories, data centers, and office buildings. They are available in various materials such as stainless steel (SS316L), hot-dip galvanized steel, aluminum, and GRP (Glass-Fibre Reinforced Polyester), which significantly affects the price. Suppliers like Jeetmull Jaichandlall, Niedax Thailand, and local manufacturers offer tailored solutions to meet specific load, ventilation, and environmental requirements. Price Factors Material Type: Stainless steel and GRP trays are more expensive than galvanized or aluminum trays due to corrosion resistance and durability. Dimensions and Load Capacity: Wider trays or those designed for heavy-duty applications cost more because of increased material usage and structural reinforcement. Customization: Special shapes, perforations, coatings, or color finishes can increase the price, as these require additional manufacturing effort. Quantity and Supplier: Bulk orders may reduce the per-meter cost, while small or one-off custom orders are priced higher. Reputable suppliers with ISO certifications may charge a premium for quality assurance. Estimated Price Range Standard aluminum or galvanized wire mesh trays: 1,500–2,500 THB per meter Stainless steel or heavy-duty trays: 3,000–5,000 THB per meter Highly customized or specialty trays: Prices can exceed 5,000 THB per meter depending on complexity and material Recommendations Contact multiple suppliers such as Jeetmull Jaichandlall, Niedax Thailand, and local cable tray manufacturers to request quotes based on your exact specifications. Provide detailed requirements including length, width, load capacity,...
