

Huawei Core Switch Assembly

Overview

High-Profit data center switches from Cisco, Huawei, Mellanox & Juniper. Deploy the Huawei CE12812-DC core switch chassis with integrated CMUs and fans for scalable data center aggregation. Optimize network reliability and simplify maintenance. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. The Huawei ES0B00770600 is an enterprise-class S7700 series modular switch chassis designed for high-performance campus and aggregation networks. This 6-slot chassis supports multi-core processors and delivers a 1.92Tbps backplane, ideal for growing Layer 2 and Layer 3 services in Asia, Europe. Hello, my name is Bob, and I am a Senior Engineer with the Technical Services team at network-switch. I am also a certified Cisco CCIE professional and HCIE certified engineer, which reflects my expertise in networking and my dedication to delivering high-quality technical solutions.
