

Huawei MA5626-8 with optical module port

Overview

This ma5626-8-16-24 port, as the name suggests, has 8 pon ports (can be connected to 8 optical fibers), 16 gigabit lan ports + 8 additional gigabit ports, a total of 24 wired interfaces, truly realizing "one machine with multiple connections". The most impressive feature. SmartAX MA5626 Remote Optical Access Equipment: Access product manuals, HedEx documents, product images and visio stencils. Huawei SmartAX MA5626 is a box-type device configurable with a GPON uplink ports and up to 8, 16, or 24 downstream ports for broadband, voip, pots, and Internet access services. This page provides the huawei MA5626 user manual and user guide, including the product description, configuration guide. Huawei SmartAX MA5626 8FE comes with installation material, power cable, subscriber cable GPON Multi-service Access Equipment 1U Height AC powered 1*GPON uplink 8FE 43.

6mm×250mm×180mm (H x W x D) The SmartAX MA5626 Remote Optical Access Unit applies to fiber to the building (FTTB) or fiber to the. The SmartAX MA5620 (the MA5620 for short) and SmartAX MA5626 (the MA5626 for short) are industry-leading remote multi dwelling units (MDUs) launched by Huawei, which provide broadband services and IP voice services on the Fiber To The Building (FTTB) network for family users and small to medium. Optical Network Units (ONUs) with Power-over-Ethernet (PoE) support, comprehensive QoS features including Dynamic Bandwidth Allocation (DBA), and up to 8, 16, or 24 downstream FE ports. Ideal for IPTV, video monitoring, and wireless broadband services in small and medium-sized offices.
