

Installation of low-voltage distribution boxes near Austria

AI Overview

Austria offers a range of specialized manufacturers providing fully customized low-voltage distribution boxes and switchgear tailored to industrial, commercial, and utility needs. Key Manufacturers and Services RHG GmbH in St. Valentin specializes in custom switchgear and distribution cabinets, offering in-house production, precise mechanical processing, and full installation services. Their systems are manufactured according to customer specifications and comply with relevant standards, with internal testing ensuring high quality and documented safety compliance. BT-Anlagenbau develops low-voltage switchgear, automatic control distributors, and control panels. They provide full planning, assembly, and documentation, including technical drawings, circuit diagrams, and terminal layouts. Their products are tested for function, insulation strength, and protective measures, suitable for both job-order and series production. ELSTA Mosdorfer focuses on compact transformer stations with integrated low-voltage distribution for transformers up to 1250 kVA. Their cabinets are robust, space-saving, and suitable for indoor or outdoor use, including photovoltaic systems and e-mobility infrastructure. They emphasize safety, flexibility, and compliance with standards for utilities and industrial applications. Logstrup offers modular and customized low-voltage switchgear solutions, including distribution panels, control panels, and Motor Control Centers (MCCs). Their systems can be built in modular or welded cabinets up to IP65, with full documentation and testing according to IEC 61439 standards. They provide "Plug and Play" container solutions and integrate components from major suppliers like Schneider Electric, ABB, Siemens, and Rockwell. Additional Options For a broader selection, B2B marketplaces like [wlw.com](https://www.wlw.com) list over 30 Austrian suppliers of low-voltage electric cabinets, includin...
