

Intelligent Network Category 6 24-Port Patch Panel

Overview

This is a Category 6 patch panel, 24-port, universal T568A/B wiring, six-port modular, 1 rack unit. Supports standard termination using a 110-impact tool. This product contributes to earning credits in the LEED rating system. When high-performance patching is required, A&G Networks rack mount patch panels is the best choice. Each panel is colour-coded for both EIA568A and B standards to insure compatibility with all installations. In addition to this, each panel has been designed with a cable management/strain relief feature built in to the rear. All outlets are. This 24-port universal 568A/B Category 6 rack mount patch panel is designed to take up a single rack space (1U), making it a compact and efficient solution for your network needs. Patch panels include patented Retention Force Technology which promotes consistent performance over the life of the system.
