

Latvia CIF price for integrated distribution cabinet 200kWh

AI Overview

The estimated CIF price for a 200kWh integrated energy storage cabinet in Latvia ranges from approximately \$28,000 to \$35,000, depending on supplier, customization, and shipping options. Price Overview The cost of a 200kWh integrated distribution cabinet, such as a BESS (Battery Energy Storage System), varies based on manufacturer, configuration, and additional features. According to available sources, prices for such cabinets in Latvia start around \$28,000 and can increase depending on system specifications, modular expansions, and optional components like photovoltaic charging modules or grid-connected/off-grid switching units.

.Suppliers and Options HighJoule offers a 200kWh BESS cabinet with integrated battery, PCS, power distribution, temperature control, and monitoring systems. They provide factory-direct pricing and support customization for Latvian projects. .GSL Energy provides modular 200kWh systems with Tier 1 LiFePO₄ batteries, multi-level BMS management, and international certifications. Their systems are suitable for industrial and commercial applications, including peak shaving and renewable energy storage. .SWB Power & Solar and FTMRS Solar also supply 200kWh integrated cabinets in Latvia, offering flexible designs for grid-tied, off-grid, and hybrid solar systems.

.CIF Considerations The CIF price includes the cost of the cabinet, insurance, and freight to Latvia. Factors affecting the final CIF price include: Shipping method and distance from the manufacturer Insurance coverage for transport Customs duties and import taxes in Latvia Optional installation and commissioning services

Recommendation For an accurate CIF quote, it is recommended to contact suppliers directly with project specifications. HighJoule and GSL Energy provide local support in Latvia and can offer detailed quotations including shipping, insurance, an...
