

Material of Cable Tray Threaded Hanger Rod

Overview

B7 Galvanized Carbon Steel Threaded Rods are high-strength fasteners crafted from a medium-carbon steel alloy, specifically designed to withstand demanding conditions. This alloy is enriched with chromium and molybdenum, which enhance its resistance to wear and corrosion. offers various supports for its Snap Track products including hangers, brackets and clamps. Scroll to bottom of page to view All Hangers Cut Sheets Support Locations- Cable Tray (Reference: NEMA VE-2 Current Issue) Supports should be located so that connectors (splice joints) between. We are leading manufacturer of high-strength threaded rods, engineered for exceptional versatility across multiple industries. These rods are precision-machined to provide accurate threading, ensuring compatibility with various fasteners and components. Characterized by high tensile strength and excellent shear resistance, threaded rods can be cut to any required. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. Our focus has always been on solutions from the field of cable support systems. Establishing partnerships. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction.
