

Outdoor Cable Tray Laying in Ukraine

AI Overview

Outdoor cable trays in Ukraine are typically installed using hot-dip galvanized or stainless steel trays, ensuring durability, fire resistance, and compliance with industrial standards.

Types of Cable Trays for Outdoor Use

- For outdoor installations,** hot-dip galvanized steel or stainless steel trays are preferred due to their resistance to corrosion and mechanical strength.
- Cable trays can be:**
 - Ladder type:** Open structure, ideal for heavy power cables and good ventilation.
 - Perforated trays:** Allow heat dissipation and reduce cable overheating.
 - Solid trays:** Provide maximum protection against environmental factors.
 - Wire mesh trays:** Lightweight and flexible, suitable for complex routing.

Installation Methods

Outdoor cable tray installation follows the open method, where trays are mounted on supporting structures such as walls, poles, or ceilings.

Key steps include:

- Route Planning:** Align trays with the shortest and straightest path, avoiding unnecessary crossings and interference with other utilities.
- Segregation:** Separate high-voltage power cables from low-voltage or signal cables to minimize electromagnetic interference.
- Fixing Cables:** Use cable ties or clips at regular intervals to secure cables and prevent movement.
- Directional Changes:** Employ elbows, T-junctions, and cross-junctions for smooth transitions and structural stability.
- Fireproofing:** Use fire-resistant coatings or flame-retardant materials, and seal tray penetrations through walls or floors with fire-rated materials.

Material Considerations

- Hot-dip galvanized steel:** Standard for outdoor use, resistant to corrosion and mechanical stress.
- Stainless steel:** Suitable for highly corrosive environments or coastal areas.
- Aluminum alloy or fiberglass-reinforced plastic:** Used in high-humidity or chemically aggressive environments.

Local Suppliers and Services

Several Ukrainian companies provide cable tray systems and installation services:

- European:** Offers trays and ducts for both indoor and outdoor installations, including industrial and chemical environments.
- Logist Electro:** Provides comprehen...
