

Price List for 100G Access Switches for Data Center Interconnection

AI Overview

100G dedicated switches for data center interconnection typically range from \$8,000 to \$50,000 per unit, depending on vendor, port density, and features. Overview of 100G Switch Options FS offers 100G data center switches with Broadcom chips, supporting advanced features like MLAG, RoCEv2, PFC, ECN, VXLAN, and EVPN, suitable for cloud and high-end campus networks. Pricing is generally available upon request from FS sales. NADDOD provides 100G Ethernet switches for copper or fiber, including managed switches with advanced network optimization features. These switches are designed for high-performance computing, AI server clusters, and scalable data center topologies. Prices are typically provided through direct sales inquiry. EPSGlobal lists models such as: UfiSpace S9110-32X: 32 x 100G QSFP28 ports, Broadcom Trident3-X7 silicon, 1RU form factor. Edgecore DCS204/DCS500/DCS501/DCS800: Top-of-Rack or spine switches with 32-64 QSFP28 ports, supporting L2/L3 line-rate switching, ONIE for NOS installation, and multi-speed connectivity (10/25/40/50/100 GbE). Pricing varies by model and configuration. Cisco 100G switches are widely used in enterprise and hyperscale data centers. According to Cisco's global price list, 100G switches can range from \$15,000 to \$50,000, depending on the model, port count, and optional software features. For exact pricing, Cisco recommends contacting authorized resellers or checking the latest price list.

Key Considerations for Pricing

- Port Density:** Higher QSFP28 port counts increase cost.
- Switch Features:** Advanced L2/L3 capabilities, VXLAN, EVPN, and telemetry features can affect pricing.
- Vendor Support and Warranty:** Enterprise-grade support contracts may add to the total cost.
- Form Factor:** 1RU vs. larger modular switches can influence price.
- Direct vs. Reseller Pricing:** Some vendors provide quot...
