

Price and Specifications of Fireproof Cable Trays in Argentina

AI Overview

Fireproof cable trays in Argentina typically range from \$20 to \$50 per meter, depending on material, type, and coating, with stainless steel and specialized coatings commanding higher prices.

Market Overview The Argentine cable tray market is influenced by inflation, currency volatility, and raw material costs, particularly steel and aluminum, which directly affect pricing. Fireproof or specialized trays are considered high-value segments, often made from stainless steel, aluminum, or coated steel to meet safety and regulatory standards set by IRAM. Demand is driven by industrial, energy, and infrastructure projects requiring robust, fire-resistant cable management solutions.

Price Ranges

- Galvanized steel trays: \$10–\$30 per meter
- Aluminum trays: \$20–\$50 per meter
- Stainless steel or fireproof coated trays: higher end of the range, often \$35–\$50+ per meter depending on thickness, ladder or perforated design, and corrosion resistance

Bulk orders may reduce per-meter costs, while custom sizes or coatings increase pricing. Additional costs may include installation, shipping, and accessories, which vary by supplier and project location.

Suppliers in Argentina

Several local manufacturers and suppliers provide fireproof or high-quality cable trays:

- SAMET:** Leading metallurgical company producing industrial cable trays with various coatings and fire-resistant options.
- Brilltech Engineers:** Offers galvanized steel, stainless steel, and fiberglass trays, with design and installation support; they provide free quotes upon request.
- Jeetmull Jaichandlall (P) Ltd.:** Supplies wire mesh and specialized cable trays, adaptable to industrial and construction applications.

How to Obtain a Quote

Specify material and fireproof requirements (stainless steel, coated steel, or fiberglass). Provide tray type and dimensions (ladder, perforated, trough, or wire mesh). Indicate quantity and deliver...
