

Price of 200 x 10 cable trays

AI Overview

The price of a 200x10 cable tray varies depending on material, finish, and supplier, typically ranging from £15 to £50 per meter for standard steel or galvanized options. Factors Affecting Price

Material: Hot-dip galvanized steel, stainless steel, or powder-coated steel will affect cost, with stainless steel being the most expensive.

Design: Solid, perforated, or ladder-style trays influence pricing. Perforated trays are common for ventilation and heat dissipation.

Length and Quantity: Prices are usually quoted per meter, and bulk orders may reduce the unit cost.

Supplier and Delivery: UK suppliers like CEF, CMW, and Eurostrut offer competitive pricing, with some providing free delivery for orders over £100.

How to Get an Accurate Price

Request a Quote: Many suppliers, including Eurostrut, allow you to request a quote directly for specific dimensions and quantities.

Check Online Catalogs: Suppliers like CEF and RS Components list cable trays by size and material, which can help estimate costs.

Consider Additional Costs: Accessories such as bends, brackets, and supports may add to the total cost. For a 200x10 mm steel cable tray, expect a price roughly between £15–£50 per meter, depending on the material and finish. For precise pricing, contacting suppliers directly with your specifications is recommended.
