

Price of 400 meters of cable tray

AI Overview

The price of a 400mm cable tray typically ranges from ₹364 per piece in India to \$2–\$25 per meter globally, depending on material, type, and supplier. Price Examples India: A 400mm perforated cable tray is available at ₹364 per piece from suppliers in Raipur, Chhattisgarh (Amogh Alumina Private Limited). Global Market: Cable tray prices per meter vary widely from \$2 to \$25, influenced by material (galvanized steel, stainless steel, aluminum, or plastic), type (ladder, perforated, wire mesh), and surface finish (hot-dip galvanized, powder-coated, pre-galvanized). Factors Affecting Price Material: Galvanized steel is common and cost-effective, stainless steel is more expensive, aluminum is lightweight but pricier, and plastic is budget-friendly but less durable. Type and Design: Ladder trays are stronger and cost more, while perforated or wire mesh trays are cheaper and suitable for lighter loads. Length and Quantity: Standard lengths are usually 2.4 meters; bulk orders can reduce per-unit cost. Coating and Finish: Hot-dip galvanization increases durability and price, powder coating adds protection and color options, while pre-galvanized trays are cheaper but less resistant to corrosion. Additional Costs: Shipping, installation, labor, and regional taxes can affect the final price. Cost-Saving Tips Opt for perforated trays instead of ladder trays if heavy load support is not required, potentially saving 15% or more. Consider bulk purchasing to reduce unit cost. Compare suppliers for local availability to minimize shipping charges. Overall, the exact price of a 400mm cable tray depends on material, type, finish, and supplier, but buyers can expect a range from ₹364 per piece in India to \$2–\$25 per meter internationally.
