

Price of Long-Span Cable Trays in the Philippines

AI Overview

Long-span cable trays in the Philippines typically cost between ₱1,310 and ₱5,300 per piece, depending on material, size, and specifications. Price Range and Factors The cost of cable trays varies based on material type (e.g., electro-galvanized steel, stainless steel), width, and length. Standard retail prices for cable trays in the Philippines range from ₱1,310.24 to ₱5,307.10 per piece. Long-span trays, which are designed to cover extended distances without intermediate supports, may be priced at the higher end due to increased material and structural requirements. Other factors influencing cost include:

- Load capacity:** Trays must support the weight of cables, typically a minimum of 15 kg/m for standard use.
- Corrosion resistance:** Galvanized or stainless steel trays are preferred for humid environments, with coatings designed to last 10+ years.
- Compliance and certifications:** Trays meeting Philippine National Standards (PNS), IEC 61537, or ASTM A123 may cost more but ensure safety and durability.
- Bulk orders:** Purchasing in large quantities can reduce unit cost by up to 40%.

Installation and Additional Costs Long-span cable trays require specialized installation, which may increase total project costs. Labor, fittings, and supports should be included in the budget. Improper installation can lead to structural issues or cable damage.

Supplier Considerations Top suppliers in the Philippines offer a balance of affordable pricing, durability, and technical support. Some provide bulk discounts, on-site consultation, and warranty support (minimum 2 years), which can be critical for industrial or commercial projects. In summary, for a long-span cable tray in the Philippines, expect to pay ₱1,310–₱5,300 per piece, with higher prices for larger, corrosion-resistant, or certified trays, and additional costs for installation and fittings. Choosing reputable suppliers and considering bulk orders c...
