

Price of Low-Temperature Pigtail Connectors for Smart Cities in Myanmar

AI Overview

Low-temperature pigtail connectors for smart city applications typically range from \$0.50 to \$5 per unit, depending on type, specifications, and order volume.

Price Overview

The cost of pigtail connectors varies based on several factors:

- Connector Type and Material:** Standard electrical pigtail connectors are generally less expensive, while specialized low-temperature or waterproof variants (IP67 rated) command higher prices due to enhanced durability and environmental resistance.
- Quantity and Bulk Orders:** Purchasing in bulk can significantly reduce the per-unit cost. Suppliers like Alibaba and AliExpress offer discounts for large orders.
- Technical Specifications:** Low-temperature connectors designed for smart city infrastructure must withstand extreme temperatures, often requiring specialized materials and insulation, which increases cost.
- Regional Sourcing:** While global suppliers provide competitive pricing, import duties, shipping, and local availability in Myanmar may affect the final cost.

Typical Price Ranges

- Standard Electrical Pigtail Connectors:** \$0.50–\$1.50 per unit for basic 2–4 wire connectors suitable for indoor or mild outdoor conditions.
- Low-Temperature Rated Connectors:** \$1–\$3 per unit for connectors designed to operate reliably in sub-zero conditions, often used in outdoor smart city sensors and lighting.
- Waterproof or IP67 Connectors:** \$2–\$5 per unit for ruggedized connectors suitable for harsh environments, including outdoor IoT devices, street lighting, and traffic management systems.

Sourcing Options

- Alibaba:** Offers a wide range of low-temperature and waterproof pigtail connectors with bulk order options and customization.
- TE Connectivity:** Provides specialized low-temperature connectors with datasheets and technical support for industrial and smart city applications.
- AliExpress:** Suitable for smaller orders or prototyping, with various connector types...
