

Price of cable tray jumper wires

AI Overview

Cable tray jumper wires typically range from \$5 to \$50 per unit, depending on length, gauge, and material. Price Overview Cable tray jumper wires, also known as bonding jumpers or grounding straps, are used to electrically bond sections of cable tray for safety and grounding purposes. Prices vary based on material (copper, tin-plated copper, or aluminum), wire gauge (#6 AWG, #12 AWG, etc.), and length (6" to 24" or more). For example, a #6 AWG tin-plated copper jumper with hardware may cost around \$15-\$25 per kit, while smaller or shorter jumpers can be as low as \$5-\$10 . Aluminum jumpers are generally less expensive than copper options .Supplier Examples Platt Electric Supply offers jumper kits including crimped lugs and hardware, with lengths from 6" to 24" and materials like tin-plated copper or aluminum .Site Pro 1 provides cable tray jumpers for bonding sections, with same-day shipping across the U.S.TechLine Mfg specializes in Snap Track Cable Tray Bonding Jumpers, designed for easy installation and reliable grounding .Mouser Electronics and Conrad Electronic offer jumper wires for prototyping and electrical connections, with pricing available directly on their websites .Factors Affecting PriceMaterial: Copper is more expensive than aluminum. Tin-plated copper adds slight cost for corrosion resistance.Length and Gauge: Longer and thicker wires cost more due to higher material usage.Included Hardware: Kits with crimped lugs, screws, or mounting accessories are priced higher than bare wires.Supplier and Shipping: Prices vary by distributor and shipping options, especially for bulk orders. For accurate pricing, it is recommended to check supplier websites or request a quote, as prices fluctuate based on inventory, material costs, and order quantity.
