

Price of cable tray tee brackets

AI Overview

Cable tray tee brackets typically range from \$5 to \$50 per piece, depending on material, size, and load capacity. Overview Cable tray tee brackets are essential accessories used to create T-shaped junctions in cable tray systems, allowing cables to branch in multiple directions. They are available in various materials such as galvanized steel, stainless steel, aluminum, and fiberglass-reinforced plastic (FRP), which influence both durability and price. Sizes generally correspond to the width of the cable tray, ranging from 75mm to 600mm. Factors Affecting Price Material: Stainless steel and FRP are more expensive than standard galvanized steel due to corrosion resistance and strength. Size and Load Rating: Larger brackets designed for heavy-duty trays cost more than smaller, light-duty options. Supplier and Brand: Prices vary between wholesalers, manufacturers, and online retailers. UK suppliers like TradeSparky and Greenmill AC offer competitive pricing for both domestic and industrial use. Quantity: Bulk orders often reduce the per-unit cost. Typical Price Range Light-duty, small brackets (75–150mm): \$5–\$15 each Medium-duty brackets (150–300mm): \$15–\$30 each Heavy-duty or large brackets (300–600mm): \$30–\$50 each Additional Considerations Some suppliers provide custom fabrication for specific project requirements, which can increase cost. Accessories like bolts, nuts, and couplers may be sold separately, adding to the total installation cost. Online suppliers often offer same-day or next-day delivery, which may affect pricing. For accurate pricing, it is recommended to check with local distributors or online suppliers such as TradeSparky, Greenmill AC, McMaster-Carr, or RS Components to get quotes based on the exact size, material, and quantity required.
