

## Price of plugs for construction site electrical distribution boxes

### AI Overview

Construction site plugs for distribution boxes typically range from \$15 to \$60 per unit, depending on voltage, amperage, and IP rating. Typical Options and Pricing

**110V Industrial Plugs (16A or 32A):** These are commonly used for construction tools and temporary site power. Prices generally range from \$15 to \$40 per plug, with higher-end models featuring robust, splashproof housings and compliance with IEC or BS EN standards.

**240V or Higher Amperage Plugs (16A-60A):** For larger distribution boxes or high-power equipment, plugs can cost \$40 to \$60 or more per unit, often including IP44-IP65 waterproof ratings and circuit protection.

**Distribution Box Sets:** Some suppliers sell plugs pre-installed in portable distribution boxes, which may include multiple sockets, circuit breakers, and meters. These complete units can range from \$100 to \$300, depending on the number of outlets and safety features.

**Key Considerations**

- IP Rating:** For outdoor construction sites, IP44 or higher is recommended to protect against dust and water.
- Durability:** Heavy-duty plugs with impact-resistant housings are preferred for repeated use in harsh environments.
- Compliance:** Ensure plugs meet local safety standards such as BS EN 60309 in the UK or NEMA standards in the US.
- Amperage and Voltage:** Match the plug to the equipment load; 16A plugs are common for small tools, while 32A or higher may be needed for larger machinery.

**Suppliers**

- MTX Electrical:** Offers 110V plugs and sockets in 16A and 32A configurations, suitable for construction and stage use.
- Construction Site Supplies UK:** Provides heavy-duty, splashproof plugs and sockets, including 16A and 32A options, often supplied with short cables for flexibility.

**Amazon / Online Retailers:** Pre-wired distribution boxes with multiple plugs and circuit breakers are available, typically in the \$100-\$300 range. By selecting the appropriate plug type,...
