

Price of pre-terminated optical cables

AI Overview

Pre-terminated fiber optic cables typically range from \$5 to \$1,800 depending on length, fiber type, strand count, and environmental specifications.

General Pricing Overview

- Short indoor cables (1-10 meters):** Prices start around \$5-\$15 for single-mode or multimode cables with 1-2 strands and standard LC/SC connectors.
- Medium-length cables (10-100 meters):** Prices increase with length and fiber count. For example, a 100-meter pre-terminated single-mode LC-LC cable can cost \$100-\$300 depending on protective features and testing.
- High strand-count or specialized cables:** Cables with 12-288 strands, armored jackets, or hybrid configurations for indoor/outdoor use can range from \$500 up to \$1,800 for long runs or industrial-grade applications.

Factors Affecting Price

- Fiber Type:**
 - Single-mode (OS2):** \$0.30-\$2.80 per meter for bulk cable; premium brands cost more.
 - Multimode (OM3/OM4):** \$1.50-\$6.00 per foot due to wider cores and higher manufacturing standards.
- Cable Construction:**
 - Armored cables:** Add \$1.15-\$6.50 per meter for protection against physical damage.
- Indoor vs. Outdoor:** Outdoor-rated or plenum-rated cables are more expensive due to UV resistance and LSZH jackets.
- Connector and Termination:** Pre-terminated assemblies include factory-installed connectors, testing, and sometimes splitters or adapters, which increases cost but saves installation time and reduces errors.
- Customization:** Custom lengths, strand counts, and hybrid options (fiber plus electrical wiring) can significantly affect pricing.

Buying Considerations

Pre-terminated cables are plug-and-play, reducing labor costs and installation errors. Factory testing ensures high reliability and performance, which is critical for data centers, enterprise networks, and long-distance links. Bulk orders or standard lengths often reduce per-meter cost compared to highly customized assemblies. In summary, small indoor cables are very affordable, while long, high-strand, armored, or outdoor-rated pre-terminated cables can be several hundred to over a thousand dollars. Prices vary b...
