

Price of the popular figure-eight fiber optic cable used by FTTR in Indonesia

AI Overview

The price of 8-core figure-eight fiber optic cables in Indonesia typically ranges from around IDR 1,500,000 to IDR 3,500,000 per 1 km roll, depending on brand, quality, and supplier. Price Overview Tokopedia lists various 8-core fiber optic cables with prices that can be sorted from the lowest to highest, offering options for both retail and bulk purchases, often with promotions like free shipping or installment payments. Lazada offers 8-core cables suitable for FTTH and FTTR applications, with multiple lengths and quality grades available, though exact prices vary by seller. Trikomindo Karunia Utama, an official dealer, sells 8-core fiber optic cables per roll (1000 meters), with prices depending on brand (Supreme or no-brand) and project requirements; for precise pricing, contacting the dealer is recommended. Shopee provides similar figure-eight cables, often in 12-core variants for backbone use, with prices around IDR 2,000,000–3,500,000 per 2 km roll, which can be used as a reference for 8-core cables. Factors Affecting Price Cable Length: Longer rolls (e.g., 1 km or 2 km) generally offer a lower price per meter compared to shorter cuts. Brand and Certification: Premium brands like Furukawa, Corning, or Nexans are more expensive due to quality assurance and certifications. Outdoor vs Indoor Use: Outdoor-rated cables with UV-resistant PE jackets or armored layers cost more than indoor versions. Market Fluctuations: Prices are influenced by import costs and exchange rates, as many fiber optic cables are imported. Practical Advice For FTTR installations, 8-core figure-eight cables are sufficient for residential or small-scale deployments. Buying in bulk rolls can reduce the cost per meter. Always check for official certification and warranty to ensure long-term reliability. Consider additional costs for connectors, splicing, and installation accessories when budgeting. In sum...
