

SRM distribution box

Overview

SRMß-12 Full- Gas Insulated RMU is indoor cabinet type AC metal sealed switching device, with AC 10kV and 50/60Hz. It is suitable for distribution systems, ring power supply and biradial power supply system in factories, workplaces, residential high-rise buildings, it possesses. Pioneers in the industry, we offer Power Distribution Box, LT Distribution Box and Distribution Box from India. The Ring Main Unit contains one or more load switches (LBS) and earthing switches for incoming and outgoing lines; as well as vacuum circuit. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. Whether you plan to produce terminal boxes, control stations or control panels, the SR series has been specifically sized and designed to meet the needs of your market. The enclosures can be supplied in a primary form or fully loaded with many accessory options such as gland. Founded in 2005, Chengdu Spor Technology Co. is a high-tech enterprise integrating science, industry and trade. The company's products cover high and low voltage complete equipment, industrial automation control, power electronics, energy-saving transformation, non-standard equipment.
