

Suiping Mesh Cable Tray Price Inquiry

AI Overview

Suiping mesh cable trays are available from multiple suppliers with prices varying by material, size, surface finish, and order quantity, typically offering discounts for bulk purchases. Price Range and Suppliers Suiping mesh cable trays, commonly made from steel, stainless steel, or aluminum, are offered by suppliers such as Qingdao Powtech, HDMANN, and other Chinese manufacturers. Prices depend on tray dimensions, material type, and surface treatment. For example, stainless steel SS304 trays and hot-dipped galvanized trays for outdoor use are generally higher in cost than electro-zinc plated trays for indoor use. Customization and Bulk Orders Most suppliers provide custom sizes, OEM/ODM options, and small trial orders. Discounts are typically available for large orders, and delivery times range from 2 weeks for standard orders to 1 month for very large orders, excluding shipping. Suppliers also offer bends, tees, risers, and reducers to accommodate complex cable routing. Purchasing Considerations Material: Steel, stainless steel, or fiberglass depending on environmental conditions. Surface Finish: Electro-zinc plated (indoor), hot-dipped galvanized (outdoor), or electrolytic polished (stainless steel). Dimensions: Internal sizes can be customized (e.g., 25mm to 150mm). Load Capacity: Ensure trays are supported at recommended spans (typically 2.5m) to meet safety standards. Supplier Selection: Platforms like Made-in-China, Alibaba, and Aajjo provide multiple supplier listings with price comparisons and direct inquiry options. How to Get a Quote To obtain an accurate price for Suiping mesh cable trays: Specify tray dimensions, material, and surface finish. Indicate quantity to check for bulk discounts. Contact suppliers directly via inquiry forms on platforms like Made-in-China or Alibaba to receive quotations and delivery details. By following these steps, you can secure competitive pricing and ensure the trays meet your project requirements.
