

TP-Link 48-port Industrial-Grade Switch

Overview

What This Product Does The 48-Port Gigabit Switch TL-SG1048 is designed to meet the needs of the most demanding workgroup and departmental connectivity requirements. A reliable, easy-to-use switch without the complexity of management, the TL-SG1048 provides 48 10/100/1000Mbps ports. The TL-SG1048 combines ease of use. PoE power up to 30W for each PoE port, 65W for all PoE ports, ideal for IP cameras, IP phones and access points Supports 802.1p/DSCP QoS and IGMP snooping functions, ideal for family TV. Multiple mounting options: supports desktop and wall mounting Long service life: each TP-LINK switch has passed. Omada network switches provide the wired infrastructure connecting access points, servers, computers, and networked equipment across your business. The TL-SG1048 combines ease of use. **Key Features:** TL-SG1048 features blocking wire-speed architecture with a 96Gbps switching capacity for maximum data throughput. An 8K MAC address table provides scalability for even the largest networks **Reliability:** Backed by our.
