

TP-Link Industrial Switch Ring Network

Overview

TL-SG5218 Industrial Grade is a brand new network managed industrial Ethernet switch designed by TP-LINK specifically for industrial environments. Provide 16 Gigabit Adaptive Ethernet ports and 2 Gigabit SFP ports. Built with IP40 aluminum casing, a -40 °F to 167 °F operating temperature range, and 6kV lightning protection, these fanless switches withstand installations where heat. Deco 7 - Wi-Fi 7 Mesh Whole Home Mesh Solution All Products Routers Create a fast and reliable Wi-Fi Wi-Fi Routers Wi-Fi 7 Routers Wi-Fi 6 Routers VPN Routers Gaming Routers Portable Travel Routers Network Expansion Easy ways to expand and enhance your network Range Extenders Powerline Access Points. Equipped with dual power input ports and a wide 12-57V DC voltage range, ensuring continuous operation even if one power supply fails. Requires the use of Omada. This document provides basic background information regarding adding ring redundancy in your wired Ethernet networks. It will explore the N-Tron proprietary protocol N-Ring and how it is a step up from IEEE Spanning Tree and Rapid Spanning Tree Protocol (STP, RSTP). Designed for working temperatures ranging from -40 °C to 75 °C, fearless of extreme.
