

Tajikistan Galvanized Cable Tray Manufacturer Price Quote

AI Overview

Galvanized cable trays in Tajikistan typically cost between \$10 and \$50 per meter, depending on size, type, and quality. Cost Overview The price of galvanized cable trays varies based on several factors:

- Material and Thickness:** Hot-dip galvanized steel trays are more durable and corrosion-resistant, which increases cost compared to standard galvanized trays.
- Tray Type:** Ladder, perforated, and wire mesh designs differ in manufacturing complexity. Wire mesh trays are generally more affordable and easier to install.
- Dimensions:** Wider or deeper trays that support more cables cost more per meter. Standard widths range from 100 mm to 600 mm, and depths from 50 mm to 150 mm.
- Supplier and Brand:** Local manufacturers like Brilltech Engineers and Jeetmull Jaichandlall offer competitive pricing, but imported trays may be more expensive due to shipping and customs.

Additional Considerations

- Installation Costs:** Labor and mounting hardware can add 20–30% to the total project cost.
- Durability and Maintenance:** Galvanized trays are long-lasting and require minimal maintenance, which can offset higher upfront costs.
- Bulk Orders:** Purchasing in larger quantities often reduces the per-meter price. For precise pricing, it is recommended to contact local suppliers directly to request a quote based on your project specifications, as prices fluctuate with steel market rates and tray dimensions.
