

Two-core armored optical cable

Overview

Perfect for military, industrial, and outdoor applications, this lightweight cable features two core fibers for optimal signal transmission, ensuring high-speed data transfer and reliability. This 2 core armored fiber optic cable is designed for high-performance data transmission in demanding environments. Featuring a robust TPU (Thermoplastic Polyurethane) outer jacket and armored protection, it is suitable for both indoor and outdoor applications, including industrial, military, and. The TPU 2 Core Tactical Fiber Optic Cable is designed for rugged environments, offering superior durability and flexibility. Strong compatibility, compatible with all standard. Armored Fiber Optic Cable, sometimes referred to as MC Fiber Cable or BX Fiber Cable, is optimized to protect your fiber cable, avoiding any and all unnecessary network downtime as a result of outside interferences. Available as OM1, OM3, OM4 multimode fibre cables or OS2 singlemode fibre cable, loose tube or tight buffered either unarmoured or with a steel tape armour.
