

Where to buy cold-joint splices

AI Overview

Cold-joint splices can be purchased from specialized electrical suppliers, manufacturers like TE Connectivity and 3M, and distributors such as Thorne & Derrick or Eland Cables. Manufacturer Direct Purchase TE Connectivity offers a wide range of cold shrink cable joints and terminations suitable for medium voltage applications. You can browse their portfolio and purchase select products directly on TE.com, or locate authorized distributors by country for local support and delivery. 3M provides cold shrink splices and kits for voltages ranging from 1 kV to 145 kV. Their products are designed for easy installation and reliable performance. You can access product catalogs, technical data sheets, and purchase options through 3M's website. Authorized Distributors and Suppliers Thorne & Derrick distributes 3M cold shrink cable joints for medium and high voltage cables, including 11 kV, 33 kV, and 66 kV. They maintain extensive stock and ship to both UK and international destinations. Eland Cables offers cable joint kits for polymeric cables, including cold shrink and heat shrink options. They provide solutions for low and medium voltage applications, with technical support to help select the appropriate joint for your installation. Key Considerations Cold-joint splices are available for various cable types (XLPE, EPR, PVC, PE, LSZH) and configurations (single-core, three-core, armoured, unarmoured). When purchasing, consider the voltage rating, cable insulation type, and connector compatibility. Many suppliers provide installation guides, videos, and technical support to ensure proper application and safety. By contacting these manufacturers or distributors, you can obtain the right cold-joint splice for your project, either through online ordering or via local authorized suppliers.

5 Best Splicing Methods for Conveyor Belts

Best for long-lasting, high-strength joints How it works: Vulcanized splicing uses heat and pressure (hot vulcanization) or

3M Cold Shrink Products | 3M US

For over 60 years, professional electrical workers have trusted 3M for innovative solutions that enhance safety and productivity. That's why we invented Cold Shrink technology: a revolutionary alternative to

3M Splices & Accessories | 3M United States

3M™ Cold Shrink QS-III 3/C Armored or Non-Armored Cable Splice Kits 5786A-MT, 5787A-MT & 5788A-MT Options available

HV Joints | HV Cable Joints | High Voltage Joints 66kV

Should you require customer service or technical support on the selection or specification of LV MV HV Cable Accessories please contact us – view the full

Cold Shrink Cable Joints and Terminations | TE

TE's line of medium-voltage cold-shrink cable accessories is designed to provide a "holistic solution". This includes disconnectable splices, in-line splices, transition

3M Cold Shrink Splices

3M electrical splices feature cold shrink technology, which is engineered for easy installation by unwinding the inner core.

Inline Splice: Cold Shrink, 15-35 kV

Our Raychem CSJA-1C In-Line Joint Cold Shrink for 1/C shielded cable from 15

3M Splices & Accessories | 3M United States

IDC Taps & Splices Molded Rubber Splices Motor Lead Splices Resin Joints & Splices Shearbolt Splices Spacer Webs Tape Splice Kits

In Line Cold Shrinkable Joints, 15-35 kV

TE's CSJ-SR cold shrinkable joint with separate re-jacketing sleeve for 15 through 35 kV is designed to splice JCN, BCN and flat strap neutral cables.

Amazon : Wire Connectors

Explore a wide range of wire connectors for automotive, marine, and electrical projects. Find heat shrink, splice, and crimp terminals.

Cold 3-Wire Splice (UR)

Go "cold splice" with these snap-able plastic splices for fast connections. Use with any 19-26 AWG solid core wire and slip them into the

TE CONNECTIVITY CSJA-3524M2 Splices, 35 kV | WESCO

TE Connectivity's (TE) Raychem CSJA all-in-one joints offer a reliable, fast and easy-to-install jointing system to assure and maintain high network reliability. TE's Raychem CSJA are designed to splice

Cold 3-Wire Splice (UR)

It's an easy way to connect multiple wires without soldering. The splices contain a little silicone jelly to keep the cold splice from oxidizing so they

TE Connectivity Raychem CSJA-1521 Cold Shrink "All

TE's Raychem CSJA are designed to splice tape shield, wire shield, LC shield, UniShield, JCN and flat strap shielded cables from 15 kV up to 35 kV. The

Cable Joint Kits

Cable Joint Kits and Cable Splices for connection of electrical cables. Global Cables and Accessories supplier. Fast Quote and Fast Delivery.

3M Cold Shrink Splices: Splices to Fit All Electrical Cable Systems

History of 3MTM Cold Shrink Technology For over 50 years, professional electrical workers have trusted 3M for innovative solutions that enhance safety and productivity. That's why 3M invented cold shrink
