

Xiaomi Router 500M Fiber Optic Speed Test Shows 200M

Overview

Check Fiber Cables : Look for visible damage, sharp bends, or loose connectors. Clean Connectors : Use lint-free wipes and isopropyl alcohol to remove dust or oil. Enter your zip code to tailor the results specifically to your area. How Much Speed Do You Need?

© 2006-2026 Ookla, LLC. Ookla ®, Speedtest ®, and Speedtest Intelligence ® are among the federally registered trademarks of Ookla, LLC and may only be used. So I got 2G fiber last month for a remote video editing workflow and noticed that I was only getting about 500Mbps up and down recently and found it was due to the router not being capable of 2G speeds. My uploads are great now at 2G speeds but I'm still. Take a speed test to see how strong the connection is in your home (and if you don't already have GFiber, see how it compares to our speeds).
