

Zxf distribution box

Overview

It is suitable for circuits with AC frequency of 50Hz and rated working voltage below 500V. Under special requirements, the protection level can reach IP55. There are knock-out holes on the top and bottom of the box, and a pre-installed opening plate can be reserved for multi-tube. This document provides specifications for JXF series metal sheet distribution boxes manufactured by Zhejiang Farady Electric Co. The boxes are made of cold-rolled steel or stainless steel, have an IP55 rating, and come in various standard sizes from 200x200x150mm to 1800x1000x300mm. JXF series products are suitable for power, lighting and loop power distribution control, monitoring and metering protection in 50Hz~60Hz, single-phase two-wire, three-phase three-wire, three-phase four-wire and three-phase five-wire systems with voltage below 500V. The frame of the JXF low-voltage Switchgear is a combined structure, and the basic skeleton is assembled from C-shaped steel.
